

# 3 Doors Down, The Road I'm On

She said life's a lot to think about sometimes  
When you're living in between the lines  
And all the stars they sparkle and shine everyday

He said life's so hard to move in sometimes  
When it feels like I'm towin' the line  
And no one even cares to ask me why I feel this way

I know you feel helpless now and I know you feel alone  
That's the same road, the same road that I am on

He said life's a lot to think about sometimes  
When you keep it all between the lines  
Of everything I want and I want to find, one of these days

What you thought was real in life somehow steered you wrong  
Now you just keep drivin' tryin' to find out where you belong

I know you feel helpless now and I know you feel alone  
That's the same road, that same road that I am on

What you thought was real in life somehow steered you wrong  
Now you just keep drivin' tryin' to find out where you belong

I know you feel helpless now and I know you feel alone  
That's the same road, that same road that I am on
