

# 3 Feet Smalle, Headlights

Crawl down the freeway as fast as I can  
Cars pass by / Occupants hound me  
My knees are bleeding, I'm running out  
Of energy, Please heal me  
Thanx a lot for ruining my life  
This is all your fault  
You made me crawl away from everything  
This is all your fault  
The Headlight cause me skin cancer  
Leave me here stranded with no cure  
Spinning around  
Try to crawl fast but I keep hitting the ground  
So there I lie  
Waiting for something  
I could cry  
Cuz something means nothing
