

30 Seconds to Mars, Walk on Water

Walk On Water

can you even see what you're fighting for
blood lust in a holy war
listen up hear the patriot shout
times are changing

in the end the choice was clear
take a shot in the face of fear
fist up in the firing line
times are changing

do you believe you that can walk on water?
do you believe that you win this fight tonight

look at the sky
see a dying star
white lies it's a man on fire
making love with the devil hurts
times are changing

a thin line
the whole truth
the fear right
the left view
breaking all those promises made
times are changing

do you believe you that can walk on water?
do you believe that you win this fight tonight
do you believe you that can walk on water?
do you believe that you win this fight tonight

do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?
do you believe you that can walk on water?

do you believe you that can walk on water?
do you believe that you win this fight tonight
do you believe you that can walk on water?
do you believe that you win this fight tonight
