Don't let me down, don't let me down again  
Don't let me down, don't let me down again  
Don't let me down, don't let me down again  
Don't let me down, don't let me down again

Swelled up eyes, oh my, the girl got beat  
And the stupid motherfucker who made you so  
That punk is a coward, let that be told  
I hear voices in the night that are electric  
He kicks the shit out of her because he's heartless  
She won't leave, she has low self-esteem  
He's got, uh, gravitational pull  
Sucks her body 'til her heart and her limbs grow cold

Hang in there, use your head  
How can I love you after you're dead?  
Hang on in there, keep trying  
How can I love you after...

Here's what you got to tell him  
I'm thinking of a picture that's keeping me in stitch  
You're causing me a mental glitch  
'Cause jealousy is such a bitch  
I hereby emancipate myself from that  
You can consider yourself free to flirt and chat  
With whoever you want, it should have always been that way  
The way that you flaunt, the way that you play  
My mind is blank slate, I'm pretending you're erased  
You cannot let me down when I cannot see your face

Hang in there, use your head  
How can I love you after you're dead?  
Hang on in there, keep trying  
How can I love you after dying?

Ode to a beat up girl, I know you're out there  
Stronger than you think, stand up if you care  
Get up off the ground, don't let me down  
Get up off the ground, don't let me down

Hang in there, use your head  
How can I love you after you're dead?  
Hang on in there, keep trying  
How can I love you after...

And you, and you, I'm a let you pass without kicking your ass  
Because I'm above it, you hurt someone I love  
It takes two to make a thing go right and that's trite  
But one just to sneak and weasel through the night

If you hurt her again, I'll fuck you up  
If you hurt her again, I'll fuck you up, fuck you up  
If you hurt her again, I'll fuck you up  
If you hurt her again, I'll fuck you up, fuck you up
