32 Leaves, Overflow

Step by step decent from where I am would seem a better plan than falling in Emotion overflowing now Dont you waste it Im falling fartoo late This over flow is too much to take Im falling fartoo late So cut it upafraid? Its just another trip anyway Im falling fartoo late Watching you go down constantly draining me Show me how you seem to be weakening Up until now whats all been said is just a lie to cover up all the times that youve made me Pay. Bleed. Breathe. Bleed and breathe. You cloud my mind all the time. Separate the sky from ground where I will stay internally until high tide The oceans overflowing now Can you taste it? So cut it upafraid? Its just another poison to take Im falling fartoo late {chorus}
