

# 38 Special, Firestarter

You know I've seen plenty like you  
Trouble ain't enough  
Runnin' your mouth, there ain't no doubt  
Thought you were pretty tough  
I remember all your dirty ways  
You know my daddy didn't raise a fool  
With friends like these I don't need no enemies  
What's a man to do?  
With a firestarer, you got trouble in sight  
A firestarter, someday you're gonna see the light  
You got no heart, you live your life  
Never treated nobody right  
Firestarter, tell me who you gonna burn tonight  
I remember people like you  
Even back in school  
Stirrin' up trouble, got your mind in the gutter  
Thought you were pretty cool  
I remember what my daddy said  
Said two-faced ain't the way  
I can't see for the life of me  
How you're standin' here today  
With a firestarer, you got trouble in sight  
A firestarter, some day you're gonna see the light  
You got no heart, you live your life  
Never treated nobody right  
Firestarter, tell me who you gonna burn tonight  
You know I've seen plenty like you  
Trouble ain't enough  
Runnin' your mouth, there ain't no doubt  
Thought you were pretty tough  
I remember all your dirty ways  
You know daddy didn't raise a fool  
With friends like these I don't need no enemies  
What's a man to do?  
With a firestarer, you got trouble in sight  
A firestarter, some day you're gonna see the light  
You ain't nothin' but a big time liar  
Never treated nobody right  
Firestarter, who the hell you gonna burn tonight
