

3moonboys, Broken Toy

Get down to work or out
To staying alive in here
All the time two steps
Day by day, year by year till death
Do it or not
Like a part of a toy machine
Your mission is to exist
You are a funny toy in the global chain
Maybe its not too bad, to be like everyone else in here
Inserted in the system, bugs are not allowed to live
Even if I try to update thinking about my life
Like my mother and my father should I stop to fight?
All my windows are broken down
98 modes to feel good
Be like a prisoner involved with
A very stupid global net
Now you can be interact
With unreal state of mind
But are you sure
Is this an important thing to live?
Get down to work or out
To staying alive in here
All the time two steps
Step by step, just to know what that game is
Do it or not
Like a part of a toy machine
Your mission is to exist
You are a funny toy in an evolution chance
