

3moonboys, Spit it out

Humiliated justice
For people like me
Is something what I saw on movie screen
but not at this time
that happened to me
what I feel, where Ive been I just want to say
I want to spit it out what Ive just seen
My first date with the law
With a blue uniform
I rode my bike
And that was my fault
They put me in jail on 24
Because they are paid for it
And nothing else
I must spit it out
This story has already begun
I dont have time to run
They give me just 2 years
Because I drank 3 beers
No matter how it was
Because Im already lost
I feel cold arms of the law
Up till now when I cant float
I just spit it out
