

# 3R, Shine On

Baby shine on  
makin' u find it  
takin' u on  
there's something behind it  
baby baby shine on

Take what u had and what u lose  
take what u know and what u knew  
there's a sound comin' out of the radio  
there's a light shining down baby don't you know

If you're burnin' yearnin' hurtin' u can reach for so much more

Baby shine on  
run into the sun  
maybe we'll find it

Takin' u on  
with a little love  
there's something behind it

Baby baby shine on  
to be to be to be to be to be free

Don't look in and don't look out  
don't try to find what it's about

Cuz the nights comin' down on this lonely road  
and the last one standin' stands alone  
don't be burnin' yearnin' hurtin' you could loose so much more

Baby shine on  
run into the sun  
maybe we'll find it  
takin' u on  
with a little love  
there's somethin' behind it  
baby baby shine on  
to be to be to be to be to be free

Baby baby shine on shine on  
baby baby shine on shine on

Baby shine on  
run into the sun  
maybe we'll find it  
takin' u on  
with a little love  
there's somethin' behind it  
baby baby shine on  
to be to be to be to be to be free

Takin' u on  
shine on  
baby baby shine on  
to be to be to be to be to be free  
uh huh
