

3rd Storee, All I Do

[D-Smoove]

Come on, listen up now

3rd Storee on the rise come on

Yab Yum on top come on

I'm in the studio caked up (caked up)

I leave the session when you wake up (wake up)

Only rock the beats with the deep cuts (deep cuts)

We all screaming 3rd Storee what, what

I met shorty on Sunset (on Sunset)

Bumping Newark on the tape deck (tape deck)

I got the number you can bet that (oh you can bet that)

I got three friends don't forget that ya heard me

[Jay-R]

Shorty had a little back caught my eye

Bounce getting jiggy with her sexy thigh

She blew my mind, she was all so fine

I think about her now most every night

I like the way her style got me hypnotized

Be so fly, I gotta make her mine

[3rd Storee] (Lil'Man)

All I do is (when I can't get no sleep I)

Think about you (you're everything to me baby)

How am I supposed to (be alone, know I just can't)

Chill without you (chill without your love)

[Jay-R]

I wanna know what I can do

To get me closer to you

I wanna know the do's and don't's

What can I do to get you

[Lil'Man]

Everyday, I think about it everyday

If I could only have you babe oh yeah

[3rd Storee] (Lil'Man)

All I do is (when I can't get no sleep I)

Think about you (you're everything to me baby)

How am I supposed to (be alone, know I just can't)

Chill without you (chill without your love)

All I do is (when I can't get no sleep I)

Think about you (you're everything to me baby)

How am I supposed to (be alone, know I just can't)

Chill without you (chill without your love)

[Lil'Man]

I can't explain what I see in your eyes

But I know it comes from deep inside

And everyday I wish that I could see

The girl that always be inside my dreams baby

[3rd Storee] (Lil'Man)

All I do is (when I can't get no sleep I)

Think about you (you're everything to me baby)

How am I supposed to (be alone, know I just can't)

Chill without you (chill without your love)
