

3rd Storee, Now I Can Breathe

(J. Moss)

Verse 1:

Walking inside of a dream
Where love is highly esteemed
Taking a chance with my heart
Praying it travels far
Then she says to me - why do you fear
Why would you dream if you could not live
Open your eyes see what is real
I'll take it from there now breathe if you will

Chorus:

You've ignited the flame in my life
Now I can see again
I celebrate that you are in my life
Now I can breathe again

Verse 2:

Roses are smiling at me
As if to say they share my glee
Violets then sigh as they gaze
As if they know that my day has been made
There she goes again tear in her eye
Whispering songs that make us cry
She says three words that make me feel
That I'm not in a dream and she's all so real

Chorus

Bridge:

Thinking of love you is fantasy
Knowing I love you is destiny
Finding that someone creates harmony
Keeping the same is matrimony

Chorus repeat 3x's
