

3rd Storee, Wanna Go Away

[Lil'Man]

They just don't understand
Though young I'm still a man
Noone can tell me I don't need you here in my life
They call it puppy love
But I've lived long enough
To know these feelings I feel are for real to me
And I know I...

[3rd Storee]

Don't wanna go away
I really wanna stay with you
But I don't have no say
For all we have is today
Said all we have today

[Lil'Man]

They think it's easy to
Just pack our bags and move
They just don't know that it means
So much more to me
Know if I had my way
There would never come a day
That I'd allow us to be so far apart
And I know I...

[3rd Storee]

Don't wanna go away
I really wanna stay with you
But I don't have no say
For all we have is today

[Lil'Man]

I just keep on looking up in the sky
Fighting back the tears
That keep coming to my eyes
Really hoping to catch me a falling star
To make a wish upon
And change the way things are, make it stop

[3rd Storee]

Don't wanna go away
I really wanna stay with you
But I don't have no say
For all we have is today
Said all we have today

Don't wanna go away
I really wanna stay with you
But I don't have no say
For all we have is today

[Lil'Man]

Said all we have is today
Said all we have is today
