

4 Lyn, Pearls & Beauty

Every morning I wake Up
And I'm laying next to you
I wanna thank God
And the Devil, for sending you

Cause your my Girl
My Wife
My Sis
Mother of my son

Your my favorite color
And the air that I breath all day
Your like a drug
When I feel fucked up
You come to save my day

One in a million
like a pearl so hard to find
I'm so happy I met you
and so thankful that your mine

What we've got is so special (special)
A million people could search their whole life long
No words can express the way that I feel
that's why I wrote you this song

Because I'm nothing, if you're not by my side
You give me love when I don't deserve it
Cause you know that's when I need it the most
Because I'm nothing, if you're not by my side
Baby girl, I love you more then I ever thought I could
And it's alright

Since I've known you
My world is perfect
What have I done to deserve you?
You're like a goddess in my eyes
You make me cry when I want you
And smile when I can

If I've got nothing to say
I know you'll understand
Baby I would kill for you
Would give up everything I've got
Just to stay with you for a life time
Believe it or not

I love everything you do
And would do anything for you
And I know you feel the same way too

Because I'm nothing, if you're not by my side
You give me love when I don't deserve it
Cause you know that's when I need it the most
Because I'm nothing, if you're not by my side
Baby girl, I love you more then I ever thought I could
And it's alright

Your spirit is beautiful
There is nothing in this world I wouldn't buy for you
When I'm separated from my baby girl
It makes me wanna crash the world
You wanna know why?

Because I'm nothing, if you're not by my side
You give me love when I don't deserve it
Cause you know that's when I need it the most
Because I'm nothing, if you're not by my side
Baby girl, I love you more then I ever thought I could
And it's alright

Because I'm nothing, if you're not by my side
Baby girl, I love you more then I ever thought I could
And it's alright
