

4 Strings, Curious ADM 2007

I've got your name not your number
I heard you found some better place
All I can do is wonder
Whatever made you leave that day?
I'd need to know a reason
Before I ask for a second chance
I'd be down on my knees
If you came back again
Coz I'm curious what you're doing
I'm curious where you've been
Coz the way you make me feel
Has never changed
Never
I'm curious what you're thinkin of
I'm curious if it's me
Coz the way you make me feel
Has never changed
Never
Take your time to remember
But don't you take me for a fool
It's getting tough and I wonder
Did I ever give up on you?
I'd need to know a reason
Before I ask for a second chance
I'd be down on my knees
If you came back again
Curious what you're doin
I'm curious where you've been
Coz the way you make me feel
Has never changed
Coz I'm curious what you're thinkin of
I'm curious if it's me
Coz the way you make me feel
Has never changed
Did I ever? Did I ever? Did I ever give up on you? (x4)
