4 Strings, Curious ADM 2007

I've got your name not your number I heard you found some better place All I can do is wonder Whatever made you leave that day? Id need to know a reason Before I ask for a second chance Id be down on my knees If you came back again Coz Im curious what youre doing Im curious where youve been Coz the way you make me feel Has never changed Never Im curious what youre thinkin of Im curious if its me Coz the way you make me feel Has never changed Never Take your time to remember But dont you take me for a fool Its getting tough and I wonder Did I ever give up on you? Id need to know a reason Before I ask for a second chance Id be down on my knees If you came back again Curious what youre doin Im curious where youve been Coz the way you make me feel Has never changed Coz Im curious what youre thinkin of Im curious if its me Coz the way you make me feel Has never changed Did I ever? Did I ever? Did I ever give up on you? (x4)
