

# 40 Below Summer, Electrify

Could you please let me inside?  
I'm standing in the cold  
On the day I almost died  
In you  
Now I'm closer to the end  
And it feels so far away  
If I could once again  
See your face

Electrify  
When I touch you  
When I touch you  
Inside  
I feel alive  
When I feel you  
When I feel you  
This time  
Inside

Could you wait for me to break?  
Or wait for me to fold?  
And I feel so out of place  
Without you  
Now we have to say goodbye  
And fly away tonight  
I feel you are the love  
Of my life

Electrify  
When I touch you  
When I touch you  
Inside  
I feel alive  
When I feel you  
When I feel you  
This time

Lift me up  
Lift me up  
To the sky above  
To the sky above  
Lift me up  
Lift me up  
So that I can be close to the way that the sun

Electrify  
When I touch you  
When I touch you  
Inside  
Electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify  
(The sun)  
Gave my life, electrify
