

# 4Hero, Morning Child

Started like seed a twinkle in an eye  
Slowly growing daily growing deeper inside  
Only mother nature knows, knows the reasons why  
We fall in love each morning when you open your new eyes

Keep smiling just like an angel, tiny finger tips  
touching mine  
Only mother nature knows, knows the reason why  
We fell in love the first time that we heard you  
softly cry

Open your eyes to the morning won't you  
Open your eyes to the morning won't you  
Open your eyes to the morning of new life

So begins the day  
The morning of new life  
Tender is the way the sun sets the world alight  
Only mother nature knows, knows the reasons why  
We fall in love each morning when you open your new eyes  
Keep smiling just like an angel, tiny finger tips  
touching mine  
Only mother nature knows, knows the reason why  
We fell in love the morning you were born my morning  
child

Open your eyes to the morning won't you  
Open your eyes to the morning won't you  
Open your eyes to the morning of new life
