

# 4HIM, For Future Generations

The signs are obvious, they are everywhere  
All that we hear about is the gloom and despair  
Too many would be prophets sayin  
"Its the end of it all"  
Cause mother earth cant take much more  
The hammers gonna fall

So nature has its needs, thats a lesson learned  
But it appears to me there are greater concerns  
Cause we can save the planet  
Thinkin we will somehow survive  
But father time is calling us  
To save somebodys life,  
so

## CHORUS

I wont bend and I wont break  
I wont water down my faith  
I wont compromise in a world of desperation  
What has been I cannot change  
But for tomorrow and today  
I must be a light for future generations

If we could find a way to preserve our faith  
So those who follow us  
See the price that was paid  
Then maybe when they question  
What its gonna take to survive  
Theyll find the strength to carry on  
In what we leave behind

## REPEAT CHORUS

Lookin in the eyes of the children  
Knowing that tomorrow is at stake  
When the choice is up to them  
Will they have the strength to say

We wont bend and we wont break  
we wont water down our faith  
We wont compromise in a world of desperation  
What has been we cannot change  
But for tomorrow and today  
We must be a light for future generations

## REPEAT
