

4HIM, For Future Generations

The signs are obvious, they are everywhere
All that we hear about is the gloom and despair
Too many would be prophets sayin
"Its the end of it all"
Cause mother earth cant take much more
The hammers gonna fall

So nature has its needs, thats a lesson learned
But it appears to me there are greater concerns
Cause we can save the planet
Thinkin we will somehow survive
But father time is calling us
To save somebodys life,
so

CHORUS

I wont bend and I wont break
I wont water down my faith
I wont compromise in a world of desperation
What has been I cannot change
But for tomorrow and today
I must be a light for future generations

If we could find a way to preserve our faith
So those who follow us
See the price that was paid
Then maybe when they question
What its gonna take to survive
Theyll find the strength to carry on
In what we leave behind

REPEAT CHORUS

Lookin in the eyes of the children
Knowing that tomorrow is at stake
When the choice is up to them
Will they have the strength to say

We wont bend and we wont break
we wont water down our faith
We wont compromise in a world of desperation
What has been we cannot change
But for tomorrow and today
We must be a light for future generations

REPEAT
