## 4HIM, For Future Generations

The signs are obvious, they are everywhere All that we hear about is the gloom and despair Too many would be prophets sayin "Its the end of it all" Cause mother earth cant take much more The hammers gonna fall

So nature has its needs, thats a lesson learned But it appears to me there are greater concerns Cause we can save the planet Thinkin we will somehow survive But father time is calling us To save somebodys life, so

## **CHORUS**

I wont bend and I wont break
I wont water down my faith
I wont compromise in a world of desperation
What has been I cannot change
But for tomorrow and today
I must be a light for future generations

If we could find a way to preserve our faith So those who follow us
See the price that was paid
Then maybe when they question
What its gonna take to survive
Theyll find the strength to carry on
In what we leave behind

## REPEAT CHORUS

Lookin in the eyes of the children Knowing that tomorrow is at stake When the choice is up to them Will they have the strength to say

We wont bend and we wont break we wont water down our faith We wont compromise in a world of desperation What has been we cannot change But for tomorrow and today We must be a light for future generations

## **REPEAT**
