

4HIM, Shelter In The Rain

How long have you been
Waiting on a little sun to shine
To take away the night
Hold on for you are never alone
Through the darkest skies
There is a guiding light

For our God is a refuge
Where the weary can run and hide
in times of trouble
Hell be the calm in the midst of the storm
Till it passes by
Oh, you need to know

CHORUS

Theres a shelter in the rain
Theres a hope for your tomorrow
Theres a cover through the pain
When youre underneath the weather
Jesus is the shelter in the rain

Sometimes when hope is hard to find
Weve got to walk by faith
Until we see the way
Hold tight for we are promised in time
Those who patiently wait
Will never wait in vain

For we know God is faithful
Hes a fortress to run into
In times of trouble
Hell cover us with the wings of his love
Till we make it through
Oh, we got to know

REPEAT CHORUS

So tell me why
Why could you ever run away
From the cover out into the storm
Just know in time
The rains gonna bring a brighter day
And the clouds will be gone
But while you wait on the Lord
