

# 4HIM, The Measure Of A Man

This world can analyze and size you up  
And throw you on the scales  
They can IQ you and run you thorough  
Their rigorous details  
They can do their best to rate  
And they'll place you on their charts  
And then back it up with scientific smarts

But there's more to what you're worth  
Than what their human eyes can see

## CHORUS

Oh I say the measure of a man  
Is not how tall you stand  
How wealthy or intelligent you are  
'Cause I found out the measure of a man  
God knows and understand  
For He looks inside to the bottom of your heart  
And what's in the heart defines  
The measure of a man

Well you can doubt your worth  
And search for who you are and where you stand  
But God made you in His image  
When He formed you in His hands  
And He looks at you with mercy  
And He sees you through His love  
You're His child and that will always be enough

For there's more to what your worth  
Than you could ever comprehend

## REPEAT CHORUS

## BRIDGE

You can spend your life persuing physical perfection  
But there's so much more than ever meets the eye  
For God looks through the surface  
And he defines your worth by what is on the inside

## REPEAT CHORUS
