

54 Seconds, It Got You Thinking

Here
Another day too long
All my words are gone
But I'm not through

Rain, the orange colored kind
Slowly faded blue
But I'm not through

God knows
What I'm saying
I'm just trying to catch your eye

It got you thinking
It got you high
Not like you were that night
But almost

Here on the losing side
Guess I'm color blind
But I'm not you

Rain, washes me away
If I were you I'd stay
But I'm not you
God knows what I'm saying
I'm not being what you want

It got me thinking
It got me high
Not like you were that night
But almost
