

# 5ive, Everyday

Everyday I got you on my mind

Everyday

I just keep

It all inside

You got me trippin'

Because I want you back and you don't know

But if you gave me a chance then maybe we'll find romance

Come on tell me are you ready to go?

You got me trippin'

Now baby tell me what I gotta do Cause when I'm laying in my bed and you pop into my head all I wanna do is get with you.

[Chorus:]

Everyday

Round and round

I think about the times and the love I found.

Oh baby, Baby

Everyday

Round and round

My head is in the clouds and it won't be coming down.

Oh baby, baby

Everyday

I just can't find the time

I just wanna say:

A girl like you,

Is hard to find.

You got me trippin'

Because I want you back and you don't know

But if you gave me a chance then maybe we'll find romance

Come on tell me are you ready to go?

You got me trippin'

Now baby tell me what I gotta do

Cause when I'm laying in my bed and you pop into my head all I wanna do is get with you.

[Chorus:]

Everyday

Round and round

I think about the times and the love I found.

Oh baby, Baby

Everyday

Round and round

My head is in the clouds and it won't be coming down.

Oh baby, baby

Well there she goes again running circles round my mind -

Yeah I know just what you're saying but you know the girl is mine.

You but maybe I can get her if I show her what I got

What you got I got double come on give it a shot.

You trying to take my girl, trying to mess around with Mrs. Right?

Now but how can I be helping when I dream of her at night

There she is up in my head everytime I close my eyes

So I think I;m gonna call her just to see if she replies.

You got me trippin'

Because I want you back and you don't know

But if you gave me a chance then maybe we'll find romance

Come on tell me are you ready to go?

You got me trippin'

Now baby tell me what I gotta do

Cause when I'm laying in my bed and you pop into my head all I wanna do is get with you.

[Chorus 2X]
