by 702

oooooh, yea, yea yea
ohhh, ohh

see everybody needs someone by there side,
and i cant go on with out u another night,
since companionships been gone my life,
has been so slow with out u
see it dont take a rocekt scientist to know i luv u,
and it dont take a rocket scientist to kno i need u,
see if u belive that u and me can change the world today
then belive me when i say,
i still luv u, i still luv u, ohh
i still luv u, ohh
i decided i still luv u , ohh
i still luv u ohh ohh
i decided...

so why do u think lets get back together (lets get back together)
there nothing it cud hurt it cud only get better,
think of wut it last felt like,
of you and i turn out lifes
into forever

see.. (see)
so it dont take a rocket scientist to know i luv u
and it dont take to kno i need u
see if u belive
that u and me
can change the world someday
then belive me when i say i still luv u
i still luv u,
i decided i still luv u
i still luv u
i decided....

never thought u wud be so happy and sure of myself
baby life w/o u is so dark (so dark, so darrk)
now i kno it will never be me loving sum1 else
cuz precious love, ur my shining star (starr)
i remember when we first fell in love
i was too young to kno wut it was,
i cudnt of trust wut made ???
so quick to tell u how it felt,
that luv is soo weird
and it still is

i still luv u, i decided i still luv u
i still luv u, i still luv u
(juss think of the things we planned to do)
i still luv u
(by change the face of those..)
i still luv u (untill fade)
