

8 Foot Sativa, Chelsea Smile

Economy the American dream
Decieving the world it's vanity seen
Democratic a crock of shit
Bush is a cunt a puss filled cyst

Power. greed. currupt and sick
There's nothing but lies, scandal and shit
Western bliss the illusion persists
Political whores in betrayal exsist

A fucking clown a limp dick bitch
Propaganda the subtle twist
A Chelsea smile's what you need
A megalomaniac on power you feed
Manipulate. desecrate. deviod of peace
There's too much hate
Putrid sewage is what you talk
You don't fool me with your media walk

Taken away. submit don't flinch
Your bones will break and you'll
Suffer the pain
Suffocating. dominating
Scream. choke. bleed and die

USA a convict state
An internal prison full of hate
Emasculate every race
Unaware they're all still slaves
Bureaucracy controls your fate
Subterfuge assassinates
Obvious it's a fucking lie
Crawl out of my ass and get a life

Faceless. hatred. no shame
Blood stains. no hope remains
Kill me

"Intelligence" It's what you preach
Nothing solved. It's too out of reach
Desperate to catch your prey
But he'll live to kill again
