

8 Foot Sativa, The Abused

It's time to fight

Life is getting harder each day
And we try to get along
But theres always somebody out there
That keeps pushing us around
What else can we do
Lets take away their lives
And stick them with a knife

This may sound crude to you
But we have no other choice
All you need is the balls to do it
Then watch that person bleed
I don't ting they'll find
A better state of mind
Living is abuse
So what else can we do

Fuck them
We fucked them

Why don't we all think before
We do abusive things
Think of all the people we harm
Doesn't mean a thing
Total self control
Who gives a fuck at all
Just because you haven't been abused
You're surely not excused
