

89ers, Hold on

I need someone to help me, 'cause I am 2 feet from the edge,
Don't push me, see through me, make my heart shalala lalala.
Show me how to look inside, 'cause there's is no place to hide,
I'm trying to dive in this special thing, shalala lalala.

Now I'm back on my own foot again,
telling you that how I'll do.

I know that we're walkin' side by side,
and I show that everything is gonna be alright.

Hold me now, it's got that you will take me by the hand,

I know that you will show me wonderland,
it's going beyond my brightest imagination.

Touch me now, I pray that you lay all your love on me,
how could I ever disagree,

'cause I'm felling lifted maybe, shalala lalala.
