

# 911, The Swing

Yeah, it's the swing  
Ooh, yeah, it's the swing  
Every day is a Saturday in the month of spring  
Seems the world is full of girl looking out for that love thing  
The hood's down, we're cruising downtown  
Just hanging with my friends  
The radio's ready to blow  
We're getting in that vibe again

Chorus:

When your body keeps swaying side to side  
Your spirit is free, it feels good to be alive  
Oh, yeah, that's the swing  
When you're happy to face the day with a smile,  
Open your heart, let somebody inside  
Oh, yeah, that's the swing  
Everyone is having fun like a holiday, yeah  
Plain to see she's the one for me  
Don't need words to communicate  
The music's loud, we're fooling around  
Just getting in the groove, yeah  
The sun's out, a lot of people about  
We're checking out the views

Repeat Chorus

It's a kind of faith that you believe  
Can you free your soul to fly?  
Kind of hope that makes you see  
Your dreams can come to life

Rap:

Here I am, and I'm gonna try to make you understand  
About the things that I'm feeling  
'Cause the swing has got me reeling  
Try thinking about the things that make you happy  
And keep your dreams alive, 'cause people, this is how it can be  
When you think that we're hanging and we're doing bad  
Or we're just feeling things you never felt and never had  
'Cause when you wake up in the morning and your soul is singing,  
That's when you're swinging

Repeat Chorus to fade
