

# 98 Degrees, Completely

Why are you doing this to me freak?  
That I can do  
What you need me to do  
For you, for you  
I gotta come clean with you baby  
Do anything to make you see  
I gotta be with you tonight  
The thought of it's consuming me  
Your body next to mine  
Let's not waste any time  
Baby, just give me a chance  
We could make some sweet romance tonight  
Repeat Chorus  
And now that you are here with me  
Every kiss with you is like a dream come true  
It's ecstasy  
We'll take it even further  
If you say that it's okay  
Now just let yourself go  
We'll take it slow  
Let's go all the way tonight  
Repeat Chorus  
Check it out  
Baby, baby let's dim the lights  
Set the mood, I'll make you feel alright  
We'll take it nice and slow  
I've got to show  
The way that love is supposed to go  
Repeat Chorus  
Now I want you listen to me girl  
Repeat Chorus
