

98 Degrees, Dizzy

I wanna know who you are
No more admiring you from afar
You walk by I get weak in the knees
I get next to you and I get dizzy dizzy
The way you look the way you move
Your body's telling me that I can't lose
You and me were meant to be
I get next to you and I get dizzy dizzy

My head is spinning round and round
You got me feeling like my feet aren't on the ground
What is this power that you have over me
I get next to you and I get dizzy dizzy
I don't know just what to do
I've been in love but this is something new
You're the one for me it's plain to see
I get next to you and I get dizzy dizzy

With my eyes open I wanna see your face
Spend all my days in your sweet embrace
Just one night with you could set me free
I get next to you and I get dizzy dizzy
You make me think of things to come
I dream of you and me making love
I don't know what you're doing to me
I get next to you and I get dizzy dizzy

My head is spinning round and round
You got me feeling like my feet aren't on the ground
What is this power that you have over me
I get next to you and I get dizzy dizzy
I don't know just what to do
I've been in love but this is something new
You're the one for me it's plain to see
I get next to you and I get dizzy dizzy

(rap)
Down with 98 degrees
Girl do you wanna get with me
Cuz sexually it's plain to see
The way you move is making me dizzy
Don't know just what to do
I need some lovin', girl, to help pull me through
I'm feeling you, I know it's true
I got nothing but love for you
C'mon baby shake it from side to side
Yo sex appeal can't be denied
Just want one chance to make it right
And girl you know tonight's the night
C'mon up down all around
Shake yo booty to the ground
Take my hand and follow me
The way you move is making me dizzy

My head is spinning round and round
You got me feeling like my feet aren't on the ground
What is this power that you have over me
I get next to you and I get dizzy dizzy
I don't know just what to do
I've been in love but this is something new
You're the one for me it's plain to see
I get next to you and I get dizzy dizzy
