Won't throw no shade on you  
Don't wanna put you through

Baby take my hand  
And try to understand  
That I'll be here for you  
Just the way you want me to

## Verse 1

Feel like you're wastin all of your time  
You're going outta your mind  
from all the tears you been crying  
And I know the things he's putting you through  
The cheatin no one can prove  
You never know what to do  
Yeah

## Verse 2

Just tell me what you feel inside  
Don't be consumed by foolish pride  
Cause I can see with my two eyes  
The pain that you've been holding tight  
It's time that you begin to feel  
The kind of love that's really real  
Yeah  
Girl let me tell you the deal

## Verse 3

It's time for you to decide  
What you want from your life  
no roomn for compromise  
Cause I can give you everything that you need  
Open your eyes and you'll see  
That I can set you free baby  
You come to me with the broken heart  
You'll feel the love from the very start

From a man that leaves you in the dark

Someone to break you from from your trance  
Now baby here is your chance
