

# A\$AP Rocky, Kids Turned Out Fine

Crazy kids, understand  
Out late, going crazy, kids innocent  
Crazy kids, understand  
Out late, going crazy, kids innocent

[Chorus: A\$AP Rocky]

The girls just want fun  
The boys, we make noise  
The girls kiss the girls  
I, thank God, ahh  
The kids will be alright, just fine  
I heard about all of the long trials in life  
All the drugs on my mind  
All the troubles I can find  
Still, I smile  
The kids will be alright, just fine  
All the colors are alive  
No longer black or white, ahh

Uh, kiss the kids, call your baby daddy  
Tell 'em who's daddy  
Call your pappy, tell him that you happy  
Shout it loud so they all know how you feel exactly  
Inside sunny energize  
Think about it like you feelin' alive  
On the mama boy, she swear to God  
Lady said that she ain't into guys  
Brand new 'cedes with the intercom  
Table made is for the dinner vibe  
Ain't a killer so don't kill the vibe  
Disrespect them, that's a different side  
Adderall and alcohol (yeah)  
The teachers called, the doctor called  
The block too hot, the marshall called  
See 'em grow and watch 'em crawl

Parents test the wine  
The kids do the lines  
Ahh, alright  
Ahh, just fine  
The kids turned out fine  
The kids turned and run  
I heard about all of the long trials in life  
All the drugs on my mind  
All the troubles I can find  
Still, I smile  
The kids will be alright, just fine  
Smoke weed, pour a line  
The kids turned out fine  
I, pour a line  
I, lose my mind
