

# A\$AP Rocky, Long Live A\$AP

[Verse 1]

I thought I'd probably die in prison, expensive taste in women  
Ain't had no pot to piss in, now my kitchen full of dishes  
Nose bloody from that sniffin', your heroin addiction  
Trigger finger itching, fuck parental supervision  
This be that murder business, little Timmy got that semi  
I ain't kidding, hide your kittens, hit your childrens with that Smith and  
A bunch of ignorant little niglets, hardheaded, never listen  
Purp-purple sippin', finger twistin', teeth glisten like it's Memphis  
A bunch of hypocritical Christians (Uh)  
The land of no religion (Uh)  
My Santa Claus was missing, catch you slippin' then it's Christmas  
Motherfuck a wishlist, my ghetto was ambition  
For my Benjis and my Bentley  
And them bitches now I gets-gets  
On the road to riches, a diamond ring, designer jeans  
Choking on that biscuit 'til I'm no longer existing  
I wonder if they miss me, as long as I make history  
Now my soul is feeling empty, tell the reaper come and get me

[Chorus]

Who said you can't live forever lied  
Of course, I'm living forever  
I'll forever, I'll live long  
You can't ever deny my force  
I'm living forever  
I'll forever, I'll live

[Verse 2]

Riding through your city like that motherfucker mine  
Or toting on that semi, rob a motherfucker blind  
License plate says wipe me down, car from 1989  
But a nigga sits so pretty call that motherfucker fine  
Lost your motherfucking mind, what's on your mind?  
Niggas talking down  
Never talk to cops  
Make him talk to God when I tote that 9, he ain't talking now  
Tell 'em watch your spine, I mean watch your back  
Better guide your track, better not look back  
Now stay in line, don't step on cracks  
So you break her back, I'm talking 'bout your mom (Uh)  
'Cause there's killers in my town (Uh)  
Making hits, sniffing lines (Yeah)  
Out committing crimes (Yeah)  
Wait for shit to simmer down (Uh)  
Corrupted little minds (Yeah)  
8 and 9, finna shine (Yeah)  
On the grind  
Do you dirty with that shimmy shimmy ya (Uh)  
Where they shoot without a purpose  
Services 'n hearses  
Kids who ain't deserve it  
Can't survive a thing, you're worthless  
Strangers make me nervous  
Who's that peekin' in my window with a pistol to my curtains?

[Chorus]

Who said you can't live forever lied  
Of course, I'm living forever  
I'll forever, I'll live long  
You can't ever deny my force  
I'm living forever  
I'll forever, I'll live

[Bridge]

Pretty nigga rich, Flacko be the shit  
And that bitch know we poppin' so she poppin' on this dick  
Nigga, RIP to Pimp, can't forget Little Flip  
And I take it out to Memphis so shout out to Triple Six

[Chorus: A\$AP Rocky & KUČKA]

Who said you can't live forever lied  
Of course, I'm living forever  
I'll forever, I'll live long  
You can't ever deny my force  
I'm living forever  
I'll forever, I'll live
