A$AP Rocky, SAME PROBLEMS?

[Intro: Lil Yachty]
How many problems get solved?
How many problems get solved?
How many problems get solved? (Ah)

Niggas dyin' every other night (solved)
Niggas cryin', that's a part of life
Lyin' to my face (solved), tryna say that it's all good (Ooh)
No, I'm not alright (Shit don't, shit, ooh, shit don't, ah)
Put your five fingers high, to the sky
On the stand, put it on your life
Stand by a nigga, wrong or right
I knew the drama, nigga, all my life
I knew the trauma, nigga, all my life (Ooh)
Been duckin' karma, nigga, all my life (Shit don't, ah, shit, ooh, shit don't)

How many problems get solved? (Ooh)
Am I a product of things that I saw?
How many problems get solved? (Ooh)
Am I proud of the things in my songs?
How many problems get solved? (Ooh)
Am I product of all of my flaws?
How many problems get solved if we don't get involved?

Don't bite the hand that feed you
I don't hear or see no evil
Dilated like my pupils
Means I already peeped you
Annihilated all my people (Ah)
Violated, 'til we tower like we skyscrapers (Shit don't)
Jumpin' off the porch, I'm fire escapin' (Shit)
We don't make no fuckin' tie-breaker (Ooh, shit don't)
All black like we tryna bring it
This that crack, call him Ronald Reagan
A$AP, know I'm tired of waitin' (Let's get it)

How many problems get solved? (Ooh)
Am I a product of things that I saw?
How many problems get solved? (Ooh)
Am I proud of the things in my songs?
How many problems get solved? (Ooh)
Am I product of all of my flaws?
How many problems get solved if we don't get involved?

Silent night, holy night
All is fine, try to duck and dive
Remember ways, that's a way of life
Remember comin' back, say, "Turn on the lights" (Ah)
Just settle down, shawty I'm sellin' white
Niggas cryin' and it's just the other night (Shit don't)
Mommas cryin', it's a part of life (Shit)
Momma sayin' I'm a satellite (Ooh, shit don't)
Jumpin' off the Porsche, I ain't 'fraid of heights
I won't drop the bag even when I'm breakin' nice
Breakin' bad I was breakin' night, Kid Cudi, "Day 'N Nite"

How many problems get solved? (Ooh)
Am I a product of things that I saw?
How many problems get solved? (Ooh)
Am I proud of the things in my songs?
How many problems get solved? (Ooh)
Am I product of all of my flaws?
How many problems get solved if we don't get involved?

Goin' down, goin' down, goin' down, goin' down
Goin' down, goin' down, goin' down, goin' down
Goin' down, goin' down, goin' down, goin' down
