

A blue Ocean Dream, On a sunny Day

And all the things that I forgot to say
Ill make it up to you on a sunny day
Everytime I think of you
My heart beats just like a drum
To the tune to the melody
It sticks just like bubblegum
And all the things that I forgot to say
Ill make it up to you on a sunny day
And all the times the moment past away
Ill givem back to you on a sunny day
Everytime I think of you
My heart beats just like a drum
To the tune to the melody
It sticks just like bubblegum
And all the things that I forgot to say
Ill make it up to you on a sunny day
And all the times the moment past away
Ill givem back to you on a sunny day
