A blue Ocean Dream, On a sunny Day

And all the things that I forgot to say Ill make it up to you on a sunny day Everytime I think of you My heart beats just like a drum To the tune to the melody It sticks just like bubblegum And all the things that I forgot to say Ill make it up to you on a sunny day And all the times the moment past away Ill givem back to you on a sunny day Everytime I think of you My heart beats just like a drum Tó the tune to the melody It sticks just like bubblegum And all the things that I forgot to say Ill make it up to you on a sunny day And all the times the moment past away Ill givem back to you on a sunny day
