

# A Change Of Pace, Know One Knows

Cut me open let me bleed for what I've done  
Tell me straight faced that I'm the only one  
Destroy me, am I not everything you need?  
Don't move and don't breathe  
As I take every breath from you  
Know one knows what I've done  
And as I wait, I'm dying  
Torn up, take me out of this picture frame  
Breathe slow, don't move as I say goodbye  
Replace you, cross my heart I hope you die  
Ripped in pieces, you're my perfect tragedy  
Know one knows what I've done  
And as I wait, I'm dying  
(For you)  
Cut me, Breathe slow  
Break me, Tell me as I die for you  
(For you)  
Know one knows what I've done  
Know one knows what I've done  
And as I wait, I'm dying  
Know one knows what I've done  
And as I wait, I'm dying  
(For you)
