

a dream too late, Do You Believe? (In Ghosts)

Stand up
I just saw you
Like a shadow
In the distance

C-c-c-cautiously
I slowly start to breathe
Slowly taste you in the air

You're just a ghost
Invisible
Well you're just a ghost

Stand up
'Cause I'm not alone here
I can feel you floating through me

Sh-sh-sh-should this be
A new disease of me
Planning intoxication

C-c-c-cautiously
I start to lose my beat
As you're breathing down my neck

You're just a ghost
Invisible
Well you're just a ghost

I feel most
When you're here
So surprising
How did you find me?
And all I want
Is the truth

You're just a ghost
Invisible
You're just a ghost

I feel most
When you're here
So surprising
How did you find me?
And all I want
Is the truth

But you're just a ghost
But you're just a ghost
Yeah, you're just a ghost!
