

A.F.I., 37 mm

Bring your secrets to me
Just give me your hands
And I'll let you feel the wounds
They bleed me
If you believe in me, how can I be dissolving?
If you believe me, I'd tell you everything
Do you fall through?
Every time, now
As I fall Every time now
Do you want to, fall into me?
Fall into me, fall into me
(Florence?) can you hear me?
Press me to your lips, and suck the voice right out
Completely of me
If you keep killing me, how can I keep absolving,
Your sins into me? Begin, poisoning
Do you fall through?
Every time, now
As I fall Every time now
Do you want to, fall into me?
Fall into me, fall into me
Time, time, time We're not waiting
Time, time, time We're no one
(I know I know)
Do you fall through?
Every time, now
As I fall Every time now
Do you want to, fall into me?
Do you fall, too?
Every time, now
As I fall Every time now
Do you want to, fall into me?
Fall into me
We are no one
We are no one
We aren't one
We are no one
We are
We are no one
We are no one
We are no one
We are no one
We are (x 3)
