

# A Flock Of Seagulls, Story of the young Heart

This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
It only seems like yesterday  
We were walking in the rain  
It only seems that our own soul  
Since I looked into your soul  
Is tearing me apart  
To tell the story of the young heart  
The story of the young heart  
It only seems that we got to say  
Maybe it's been near two years  
Since we were burning down the days  
Neither happiness nor tears  
The story in your eyes  
Is the story of the young heart  
The story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart  
This is the story of the young heart (this is the story)  
This is the story of the young heart  
You know they gotta break your young heart (this is the story)  
This is the story of the young heart
