

# A Global Threat, Who's To Blame

A Global Threat  
Miscellaneous  
Who's To Blame

what makes a killer? now that's a bore  
what makes you scream? you're being ignored  
if your hand are bloody then so are mine  
we all want freedom when we're confined  
who's to blame?  
who's to blame?  
what's the fucking difference does it matter who's to blame?  
scrutinized or trivialized the end result's the same  
the world is going down the fucking drain  
these things happen every day  
buildings burn, kids are blown away  
you think we're safe here (america) privileged from birth?  
we're our own victims on planet earth  
down the fucking drain
