

# A, Good Time

I saw You in a photograph  
I saw You and You made me laugh  
You couldn't stop it goin' on  
You know You couldn't save the day  
I hear You on the telephone  
I feel You when I'm on my own  
You couldn't stop it goin' on  
You know You couldn't save the day  
Anyway... Yeah...  
We've all got our problems  
Why is something on my mind  
I would not wanna worry You  
When all You wanna do is have a good time  
All You wanna do is have a good time  
Everybody's got their problems  
Why is something on my mind  
I would not wanna worry You  
When all You wanna do is have a good time  
All You wanna do is have a good, good time  
And if it's any consolation  
We never had this conversation  
I know You think You're on a mission  
I know You think You're gonna save the day  
So get Your ears on  
And in position  
I know You think You're on a mission  
I know You think You're gonna save the day  
Anyway... Yeah...  
Get back in the days  
Get caught in the ways  
There will always be somethin'  
Always, always  
I'm not taking it on  
It's a little too late  
And it's too late, yeah  
Come on, come on, all You wanna do is have a...  
Come on and I'll show You the good time  
Come on, come on, all You wanna do is have a...  
Yeah... Yeah...
