

# A-ha, Cannot Hide

Can you see me baby  
Standing in the light  
I feel your cat's eyes on me  
Faster in the night  
I move inside  
Got those eyes  
Something's burning baby  
That's alright  
You and I  
Here tonight

Meet me on the other side  
'Cause you can do me right  
Take me where I cannot hide  
'Cause you can do me right  
Meet me on the other side  
You don't know me girl  
I'm faceless in the crowd  
The things I could show you baby  
Come on, come onto my cloud  
I'm alive tonight  
Something's falling baby  
You and I  
Out of the sky I can see it in your eyes

Meet me on the other side  
'Cause you can do me right  
Take me where I cannot hide  
'Cause you can do me right  
You need, baby, you're alive  
'Cause you can do me right  
Take me to the other side  
'Cause you can do me right  
Meet me on the other side

I speak French today baby.
