

# A-ha, Make It Soon

I watch my love she's sleeping  
The air around her deepened  
Tomorrow she will smile again  
Tomorrow she'll get wild again

My love  
And the moon  
Take your time  
Make it soon

I didn't mean to hurt you  
It's what I use the words to  
Every time we loose our way  
Get so many things to say

My love  
And the moon  
Take your time  
Make it soon

I see you and I hear you call  
But sometimes when I lost it all  
I go out of my mind  
To see what I can find  
I can find

I watch my love she's sleeping  
The air around her deepened  
Tomorrow she will smile again  
Tomorrow she'll get wild again

My love
