

A Hero Next Door, Take This Time

[Verse:]

Always shouting what's wrong with the world today
Never having an idea for a better way
Can't stop dreaming about making a change
But never trying or wanting to arrange
To put aside what holds you back
It's do or die

The truth hits hard, the lights went out
No time to wonder, just where your thoughts have gone

[Chorus:]

We'll take this time
To follow through
We just can't wait forever for you
