

# A New Found Glory, Forget Everything

Can we pretend for one second that we are together  
What's the point of keeping my feelings at bay  
It takes a lot of me to get the nerve  
To wake up, everyday  
And what if I don't, would you even care?  
Would you even care?  
Forget everything that we have done  
Erase me from your memory  
Don't call, don't ask about me  
Until the day hell freezes over  
I can't remember the last time I saw you smile  
It might have been around this time last year  
It takes a lot of me to get the nerve  
To tell you everything is okay  
And what if I don't, would you even care?  
Would you even care?  
Forget everything that we have done  
Erase me from your memory  
Don't call, don't ask about me  
Until the day hell freezes over  
It's gone before you know it  
You can't let go of something you've never had  
It's ash until you burn it  
I hope I never see you again  
And what if I don't, would you even care?  
Would you even care?  
Forget everything that we have done  
Erase me from your memory  
Don't call, don't ask about me  
Until the day hell freezes over  
When hell freezes over
