## A Perfect Murder, Body And Blood

Discipline is the blood of life Strenght an only friend No time for sorry It's just time to move on I'm the last man

Castration
Furstration
You don't mean a f\*\*k to me
Stronger by the hour
What we had is soured
Your thoughts ain't shit to me

Intimidation
Domination come the taste
The hate I bleed
I am the new found power
The drug you bow to
Your weakness is all you need

Anti-life for the weak
No sympathy for the downtrodden
Will rise above my falls
And crush the doubters one and all [x2]

Embrance the fear until the end Never tinking about the future Never considiring the end Your strenght is all you need
