

# A Plea For Purging, Holocausts

Millions of lives lost  
So you can fill your pockets  
Millions of children slaughtered  
So you can fill your pockets  
When there's blood on the streets  
It's time to buy  
When there's blood it's time to buy  
Choices made  
The innocent will pay  
Who are you to say who's to live and who's to die  
Profit made  
Millions die today  
Who are you to say who's to live and who's to die  
One day you will burn for your decisions  
And what you did with human life  
So live it up now  
Unwanted children  
Forget about them  
As you fill your pockets  
Profit off a death  
You could have stopped it  
But you did nothing  
Only the dead have seen the end of this war  
When you look into the eyes of your children  
I hope you see the millions you have murdered  
When there's blood on the streets  
There's blood on your hands
