And It Seems Like I'll Stay

And it seems like i'm going to stay, yes

Yes it seems like i'll stay

But it feels like i lostaday, yeah

Found me a new love fresh like a running stream

All but "here today" seems like a hazy dream

This moment holds it all and holds me in between

Now i'm feeling

Inside, feeling inside

Escaping time

I'm going to love you

Like nobody ever did before

Like a breeze through an open door

On a sunny sunny day

This love is cool

Gonna blow your tears away

Blow your tears away

That's all i have to say

Sunday into monday, lost another day

Tuesday held me close and watched me swoon and sway

I remember wednesday like a shakespeare play

We could be r' & j'

A very tragic way

Thursday you're a siren deep inside the week

Friday like a shipwreck lying at your feet

Saturday we met now i can hardly speak of

How i'm feeling

Inside, feeling inside

Dissolve my mind

Inside, feeling inside

Say "lovers blind"

But i don't mind.
